

Lot of things in the new one are good. More details under each post, writer name, context to the content etc. Pagination to keep going back to old contents. Popular post at bottom. Red Color high light is good. Please find few things noticed below, that can be considered for thoughts and discussion.

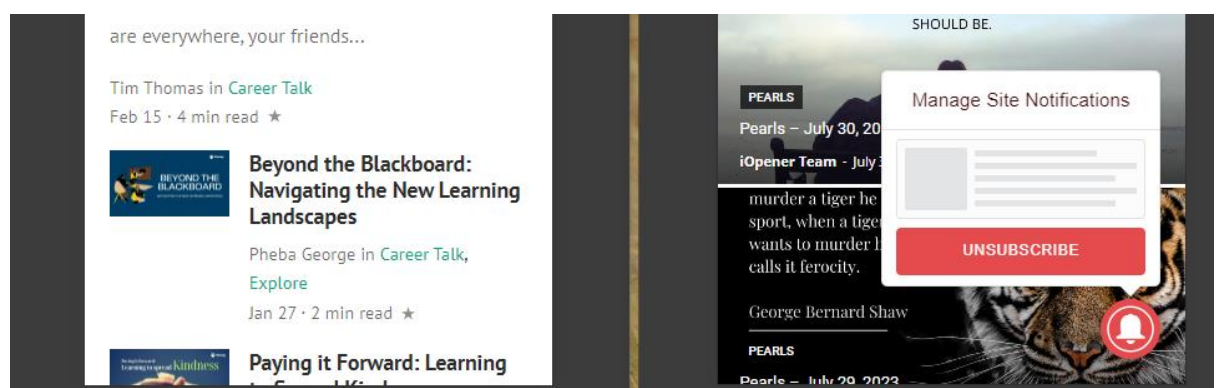

1. Image is getting cut. Study Efficiently. In a mobile screen can we get it left to right with no padding? Similar to the old one.

2. Search option is missing. However search is there when clicked on the burger icon.

3. Subscribe button is missing

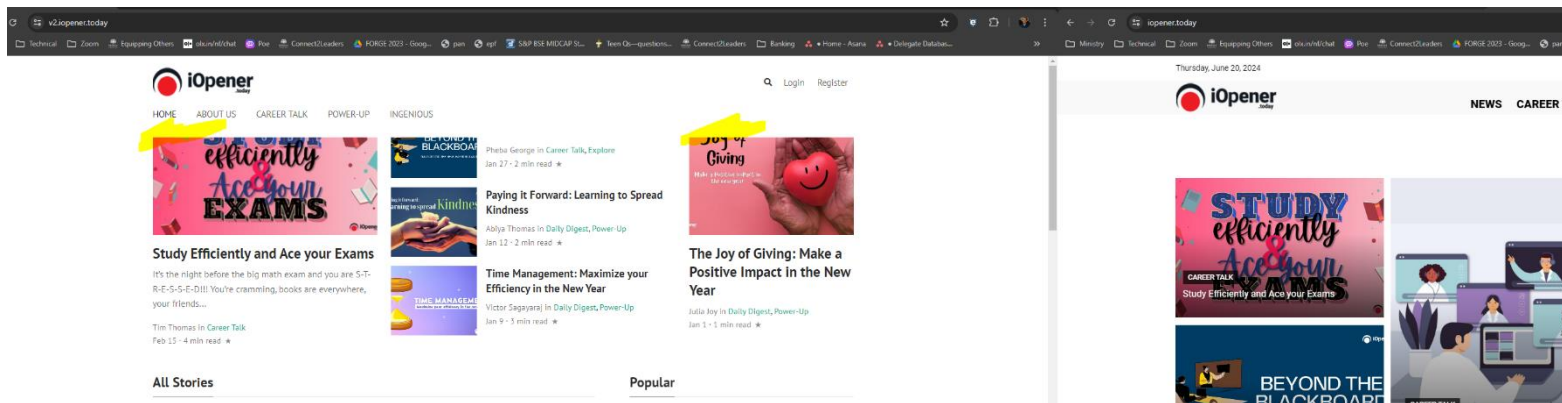

4. Powered by ICPF is missing

5. Missed links to fb/X etc..

5. Desktop view too image is getting cut

6.
